

TaiCoL format: Tab-delimited (txt)/Comma-separated (csv), without quotes added, column names in first row

column name	definition	欄位內容說明	註			
name_code	TaiCoL name id		unique id, auto-generated when adding new name			
name	scientific name (Latin name)					
common_name_c	Chinese common name		first one is given priority			
is_accepted_name	the name is accepted or not	1, Yes 0, No				
status_id	name status	1, accepted name				
		2, ambiguous synonym				
		3, misapplied name/mistake name/misidentified				
		5, synonym				
		8, ending change				
		9, junior synonym				
		10, new combination				
		11, original combination				
		12, misspelling				
		13, nomen dubium				
		14, duplication				
		accepted_name_code		accepted name id (current name id)		When the name is accepted, this column is same with 'name_code'; if not, the code in this column points to accepted name in another 'name_code'.
		kingdom		Kingdom		
		kingdom_c		Kingdom in Chinese		
phylum	Phylum					
phylum_c	Phylum in Chinese					
class	Class					
class_c	Class in Chinese					
order	Order					
order_c	Order in Chinese					
family	Family					
family_c	Family in Chinese					
genus	Genus					
genus_c	Genus in Chinese					
species	specific epithet					
infraspecies_marker	connecting term indicating infraspecies rank	subsp., var.....				
infraspecies	infraspecific epithet					
infraspecies2_marker	connecting term indicating lower infraspecies rank	subsp., var.....				
infraspecies2	lower infraspecific epithet					
author	author of species (author citation)					
author2	author of infraspecies (author citation)					
is_endemic	endemic to Taiwan or not	1, Yes 0, No				
is_marine	marine species or not	1, Yes 0, No				
alien_status	native or alien to Taiwan, or other situations	0, native	maybe insufficient at the moment			
		1, naturalized				
		2, invasive in Taiwan				
		3, invasive in other country				
		4, cultivated/pet				
5, excluded/doubted						
is_fossil	fossil species or not	1, Yes 0, No				
redlist_wang	Category of species in "A Preliminary Red List Of Taiwanese Vascular Plants" (Wang et al. 2012. Endemic Species Research Institute, COA, Taiwan.)					
redlist_wang_ass	Criteria of species in "A Preliminary Red List Of Taiwanese Vascular Plants" (Wang et al. 2012. Endemic Species Research Institute, COA, Taiwan.)					
redlist_chen	Category of species in "Red Data Book of Freshwater Fishes in Taiwan" (Chen et al. 2012. Forestry Bureau, COA, Taiwan.)					
iucn_code	Category of species in IUCN Red List					
iucn_assessment	Assessment of species in IUCN List					
iucn_dateassessed	Assessment Date of species in IUCN List					
iucn_id	Taxon ID in IUCN Red List					
coa_redlist_code	Species in coservation categories announced by COA, Tawan: I ,II, III --Species regulated by Wildlife Conservation Act, Taiwan F -- Sepcies regulated by Fisheries Act, Taiwan 1 -- Plant species regulated by Cultural Heritage Preservation Act, Taiwan	I, Endangered species	Terrestrial and merine conservation species list have been seperated since 2019/1/9 but havn't modified in TaiCoL.			
		II, Rare and valuable species				
		III, Other conservation-deserving species				
		F, Catching, harvesting, selling and possessing prohibited aquatic sp				

		1, Precious and rare plants	
coa_dateassessed	Assessment Date of species in coservation categories announced by COA, Tawan		data insufficient
cites_code	CITES Appendices	1, Appendix I	If the species exists in two appendices, " " is added between two, ex. "1 2".
		2, Appendix II	
		3, Appendix III	
redlist2017	Category of species in "Red List of Taiwan" (2016-2017. Endemic Species Research Institute, COA, Taiwan.)		
redlist2017_note	Note for the Category of species in "Red List of Taiwan". (2016-2017. Endemic Species Research Institute, COA, Taiwan.)		When TaiCoL accepted name is different from the name used in "Red List of Taiwan", the note shows the original scientific name used in "Red List of Taiwan".
datelastmodified	The date of last modified about the scientific name date
